Introduction

Overview

The Uniform Collateral Data Portal[®] (UCDP[®]) is the joint web-based portal through which lenders electronically submit appraisal data files prior to loan delivery to Freddie Mac and Fannie Mae (Government Sponsored Enterprises or GSEs). Through UCDP, you can submit appraisal data files, search for previously submitted appraisal data files, clear hard stops and view reports.

The Appraisal Sharing solution was designed to allow aggregator lenders direct access to information about correspondent lender appraisal submissions. The solution allows correspondents and their authorized agents to share individual appraisals with specific aggregators, and enables aggregators to gain access to the status, findings, SSR and embedded appraisal PDF (portal only) of specific appraisals shared via the UCDP.

Who should read this manual?

This User Guide is intended for correspondent lenders, their authorized lender agents and aggregator lenders who plan to use the appraisal sharing capabilities through the UCDP webportal.

What's in this manual?

This manual contains the following sections:

- Section 1: Setting up your Appraisal Sharing Access: introduces the new appraisal ٠ sharing user role and provides an overview on how to set up the appraisal sharing functionality.
- Section 2: Sharing Appraisals: explains how correspondents can share appraisals with their aggregators, as well as search for and view previously shared appraisal submissions and results.
- Section 3: Retrieving Shared Appraisals: explains how aggregators can to access appraisals shared by their correspondent lenders; search and access the status, findings, SSR and embedded appraisal PDF (portal only).
- **Appendices:**
 - A. Frequently Used Terms
 - B. User Structure and Roles
 - C. Appraisal Sharing Guidance

UCDP Appraisal Sharing Guide

This document relates to the Uniform Mortgage Data Program[®], an effort undertaken jointly by Freddie Mac and Fannie Mae at the direction of their regulator, the Federal Housing Finance Agency.

1. Setting up Appraisal Sharing Access

Before you can start, you will need to make sure you have the appropriate access to the UCDP appraisal sharing functionality. Your Lender Administrator, or Lender Admin, is automatically granted access to the appraisal sharing functionality in the portal and has the authority to set up and manage other user's roles and access privileges.

In order for other users to access the appraisal sharing functionality, your Lender Admin needs to modify the user's role to a Lender Correspondent/Aggregator User, or Lender CorrAgg User. The Lender CorrAgg User has the same privileges as a Lender User to submit appraisal files; however, the Lender CorrAgg User role is designed to have the dual ability to share, as well as retrieve, shared appraisals.

Additionally, authorized lender agents with the Agent Admin or the Agent Correspondent User role are able to share appraisals submitted by themselves on behalf of the correspondent.

See Appendix B for additional information around User Structure and Roles

2. Sharing Appraisals

Who should read this section?

This section is intended for correspondent lenders and their authorized lender agents, who plan to share appraisals through the UCDP web portal.

2.1 Setting up Your Selected Aggregators

As an individual correspondent user, you must set up your selected aggregator(s) within the UCDP by navigating to the User Profile page under the Account Administration tab from the Home Screen, as shown in figure 2.1.1.

Figure 2.1.1 Accessing the User Profile Page

The User Profile page includes an Aggregator Selection section that allows you, as the correspondent, to select the aggregator(s) with whom you will frequently share appraisals.

This document relates to the Uniform Mortgage Data Program®, an effort undertaken jointly by Freddie Mac and Fannie Mae at the direction of their regulator, the Federal Housing Finance Agency.

The Aggregator Selection section on the User Profile page is comprised of two list boxes:

- Available Aggregators
- Selected Aggregators

The 'Available Aggregators' box on the left, is a global list of all the active aggregators who have registered for the appraisal sharing feature to-date within the UCDP. On the right, is the list of 'Selected Aggregators' who you have selected, which will be specifically tied to your user profile. Other users within your organization will need to select their aggregators via their own UserProfile page.

In order to select one or multiple aggregators to add to your selected aggregator(s) list, select the aggregator from the Available Aggregators list and "Add >" to the box to the right. You may also "< Remove" one or multiple aggregators from your selected list if you do not wish to share appraisal(s) with the aggregator.

Tip: To select multiple aggregators, hold down the 'Ctrl' button while right clicking the names of the aggregators you wish to add or remove from the list.

When you have completed selecting your aggregators, the list of aggregators in the Selected Aggregators box is automatically saved, and you can navigate away from the page when you are done with your selections.

2.2 Navigating the 'Share Appraisals or Search Previously Shared Appraisals' page

After you have selected your aggregator(s), you can navigate to the Appraisal Sharing page and begin designating your appraisals.

From the Home Screen, you may either click the Share Appraisal icon or navigate to the Share Appraisal tab and select Share Appraisals from the drop-down list.

Figure 2.2.1 Share Appraisals tab and Share Appraisal icon

On the Share Appraisals or Search Previously Shared Appraisals page (Figure 2.2.2) youcan enter the parameters for searching submitted appraisals and designate appraisals to yourselected aggregator.

This page is comprised of the following sections:

- Search Parameters
- Select Default Aggregator drop-down list •
- Search Results .

Table 2.2.4 provides additional details around the specific search parameters	Description	Notes
Date range	Search by the appraisal latest updated date; includes submission, resubmission, appraisal meta data update, and override request update.	 "From" date and "To" date must be used together. Use the calendar icon to the right of each field to select a beginning and end dates or enter the dates manually. Click "Today" to search appraisal data files submitted/last updated on the current day. Search results are automatically displayed and may vary based on other search parameters entered. Click "Yesterday" to search appraisal data files submitted/last updated the previous day (including Saturday and Sunday). Search results are automatically displayed on other search parameters entered.
Designation Checkboxes	Search by the designation status of the appraisal, i.e., whether or not a submitted appraisal has been designated to an Aggregator. <u>Note: At least one of the designation status</u> <u>checkboxes must be checked to run a</u> <u>successful search, otherwise you will</u> <u>receive a "No records to display" message</u> <u>in the search results.</u> If you wish to retrieve all appraisal files, regardless of their designation status, check both boxes.	 You must include other search parameters with the Designated and/or Not Designated boxes in order to see search results. The page defaults to the 'Not Designated' checkbox, which will return all new appraisal submissions not previously shared with an Aggregator. Check the Designated checkbox to search previously shared appraisals. Agents: To retrieve designated appraisal files, you must select the Lender Name in addition to checking the Designated box.
Aggregator (Designated to)	Search by previously designated Aggregators	 The field is enabled only when the Designated box is checked. The dropdown provides a list of all Aggregators who have received a designation from you within the past 18 months. Select the aggregator from the dropdown list or enter the aggregator information manually, i.e., aggregator name (Aggregator ID, city, state).
Designator User ID	Search by User ID of the individual who designated the appraisals	 Designator User ID is the correspondent user who made the designation. The field is enabled only when the Designated box is checked.
Other	 Doc File ID Lender Name Lender Loan Number Address City, State, Zip 	 These options can be used alone, along with the designation checkbox, or in combination. Lender Name is required for agent users.

Select Default Aggregator Drop-Down List

If you have added only one aggregator in the 'Selected Aggregators' list on your User Profile page, the aggregator values, i.e., Aggregator Name, Aggregator ID, City and State, are displayed in the Select Default Aggregator field as the default. Alternatively, you may select one from multiple aggregators, as listed in the Aggregator Selection page, by clicking the Select Default Aggregator dropdown list.

When one aggregator is selected from the Select Default Aggregator drop-down list, the aggregator name will automatically populate beside the checked (or active) designated checkbox of the corresponding Doc File ID in the Search Results section.

2.3 Designating Appraisals from the Search Results

To designate an appraisal to an aggregator, click on the Designate box within the search results section to activate the Aggregator drop-down. From the drop-down list, select the aggregator with whom you wisht to share that specific appraisal file.

To share multiple appraisal files:

- Check the Designate box within the header row to select all the Designate checkboxes and activate the aggregator drop-down lists. (You can also clear all the Designate checkboxes by unchecking this box.)
- Use the Select Default Aggregator drop-down list above the Search Results section to populate the same aggregator across active checkboxes. When a default aggregator is selected in this drop down, the aggregator name automatically populates next to the checked (or active) Designate checkbox.

3. Retrieving Shared Appraisals

Who should read this section?

This section is intended for aggregator lenders who wish to use the appraisal sharing capabilities to access shared appraisals through the UCDP web portal.

NOTE: There is a separate five-part Reference Series for Lender Admins available on each GSE website to assist the Lender Admin in the organizational setup. Series 5 of the Reference Series focuses on Managing the Aggregator Profile.

3.1 Navigating to the 'Retrieve Shared Appraisals' Page

From the Home Screen, navigate to the Share Appraisals tab and select Retrieve Appraisals from the dropdown list.

Figure 3.1.1 Share Appraisal dropdown list and Retrieve Appraisals tab

The Retrieve Appraisals navigation tab opens the **Retrieve Shared Appraisals** page (Figure 3.1.2) where you can enter the parameters for your search. These parameters enable you to refine your search by date range, accessed status, Document File ID, etc.

3.3 Accessing the "Appraisal: View" Page

Use the Appraisal View page to access the appraisals that have been shared with you. It is important to note that you cannot edit correspondent-shared appraisal data within UCDP. However, your correspondent lender can submit an override request, resubmit a corrected appraisal data file, add additional appraisal data files, and edit the appraisal information after the appraisal is shared.

To access the Appraisal View page, click the Doc File ID on the Retrieve Shared Appraisals Search Results page.

Section 2: Appraisal Information

The Appraisal Information section lists the appraisal submission information, including submission date, last update (if applicable), file format, property address, property value, and appraiser information. UCDP automatically standardizes address formats; for example, 123 Main Street Southwest becomes 123 Main St SW.

The actual appraisal submission is attached in the PDF (see Figure 3.3.5). The PDF file is a fixed document that includes text, fonts, graphics, and other information. Clicking the PDF icon displays the appraisal submission in a PDF document in a new window. If the PDF document is unreadable, a blank window appears.

NOTE: The embedded PDF file is only available via the UCDP web portal interface.

Figure 3.3.5 Appraisal View Submission Information Subsection

The Appraisal Hard Stops subsection shown in Figure 3.3.5 displays hard stops that may have occurred, details on the hard stops, comments, and the user associated with each override request and override decision. The subsection also indicates whether an override was manual orautomatic when it was submitted, and the result of the override.

The Appraisal Findings subsection shown in Figure 3.3.5 includes all UAD compliance results.

This document relates to the Uniform Mortgage Data Program[®], an effort undertaken jointly by Freddie Mac and Fannie Mae at the direction of their regulator, the Federal Housing Finance Agency.

From this page, you can print the findings information or download the information to a Microsoft® Excel® spreadsheet.

- To print the information, click Print.

Appendix A: Frequently Used Terms

Term	Description			
Appraisal Management Company (AMC)	A platform vendor who submits appraisals within the UCDP on behalf of a lender. Also known as a Lender Agent.			
Aggregator Lender	Lender who purchases loans from loan originators (i.e., Correspondent lenders).			
Aggregator ID	A system generated ID that uniquely identifies the aggregator.			
Business Unit	A UCDP organizational structure that enables Lender Administrators to manage users, seller numbers, the relationships for submissions, and access rights for different user roles.			
	It also enables institutions to define subgroups (subordinate business units) within their organization for ease of use and management of activity. Organizations can partition their users and appraisal submissions, and set up an organizational structure in UCDP based on division of work and responsibilities. How to create a business unit is defined in the UCDP Reference Series for the Lender Admin accessible via the Help Center or via the following link: http://www.FreddieMac.com/learn/pdfs/uw/UCDP_references.pdf.			
Correspondent Lender	Lender who originates loans and sells the loans to Aggregator lenders after the loan closes.			
Doc File ID	The number assigned to each unique submission. There is a single Doc File ID for each loan submission for use with both GSEs (whether one, two, or three appraisals are submitted within that loan).			
Embedded PDF	The first generation PDF generated by the appraiser, embedded in the MISMO XML appraisal file. No changes can be made to the content of the PDF.			
FNM	Fannie Mae			
FRE	Freddie Mac			
GSE (or Investor)	Government Sponsored Enterprises, Fannie Mae and/or Freddie Mac			
GSE Selling Guide	Each GSE has a Selling Guide on its website that outlines policies and guidelines for loans sold to each GSE. Lenders need to consult these guides for specific policies on appraisal eligibility.			
Hard Stop	An error encountered in UCDP that impacts the appraisal document's UCDP status of either "Successful" or "Not Successful". There are three types of Hard Stop categories: "Auto-Overrideable", "Manually Overrideable", and "Not Overrideable".			
Lender Agent	AMC or platform vendor who submits appraisals on behalf of a Lender within the UCDP system.			
Lender Agent Business Unit	Contains lender agent users, Fannie Mae and Freddie Mac Seller Numbers, lender relationships, and subordinate lender agent business units.			
Lender Business Unit	Contains lender users, Fannie Mae and Freddie Mac Seller Numbers, lender agent relationships, and subordinate lender business units.			
Parent Business Unit	The top level in a tree structure.			
Seller Number	Fannie Mae Seller/Servicer Number or Non-Seller/Servicer Number; Freddie Mac Seller/Servicer Number or TPO Number			

Term	Description
SSR	Submission Summary Report (SSR) is a UCDP report that summarizes the details of an appraisal data file(s) submission.
UAD	The Uniform Appraisal Dataset (UAD) is a data specification that the GSEs developed to improve the quality and consistency of appraisal data. The UAD defines all fields required for an appraisal submission and standardizes definitions and responses for a key subset of fields.
UAD Compliance Check	UCDP validates submitted appraisal data against the UAD standards defined by Fannie Mae and Freddie Mac files and returns an error message if the data is incomplete or does not conform to the UAD standard. Details on each UAD failure are provided in the error message. UCDP does not check for compliance with the GSE Selling Guides.
UCDP	Uniform Collateral Data Portal (UCDP) is the joint portal for electronic submission of appraisal data to the GSEs.
XML	XML stands for Extensible Markup Language, which is a set of rules for encoding documents in machine-readable form. The goal of XML is to provide simplicity, generality, and usability over the Internet. It is the primary method for lenders or vendors to transmit encoded documents to the UCDP.
